Problem – Solution Fit Template:

The Problem-Solution Fit means the team has found a real customer problem and that the proposed solution actually solves it. It helps identify behavioral patterns and recognize what would work and why.

Conclusion

Mapping the 10 boxes confirms the solution fits the validated problem: the Tableau workbook directly addresses the customer segment's job-to-be-done (compare 1,472 products by skin type, price, and rating), removes the root cause (no aggregated visual view), and matches their behavior (quick visual comparison instead of manual research).
