

Ideation Phase

Empathize & Discover

Date	30 June 2026
Team ID	
Project Name	Cosmetic Insights: A Tableau-Based Analysis of Skincare Trends and Consumer Preferences
Maximum Marks	4 Marks

Empathy Map Canvas:

An empathy map is a simple, easy-to-digest visual that captures knowledge about a user's behaviours and attitudes. It is a useful tool to help teams better understand their users.

Creating an effective solution requires understanding the true problem and the person who is experiencing it. The exercise of creating the map helps participants consider things from the user's perspective along with his or her goals and challenges.

Persona: Skincare Buyer / Cosmetics Brand Analyst

Think & Feel / Hear / See / Say & Do

THINK & FEEL

- Wonders if a higher price means better quality
- Worries about picking a product unsuitable for Sensitive or Dry skin
- Questions whether popular brands are actually well-rated

HEAR

- What friends and influencers recommend
- Marketing claims made by brands

SEE

- Long, unstructured product listings online
- Long ingredient lists with no plain-language summary
- Inconsistent ratings across platforms

SAY & DO

- "I don't know which moisturizer suits my skin."
- Scrolls through multiple e-commerce sites and reviews
- Asks friends or influencers instead of checking data
- Defaults to known/popular brands out of uncertainty

Pain & Gain

PAIN	GAIN
- No single place to compare price, rating, and skin-type suitability - Ingredient lists are long and hard to interpret quickly - No visibility into how a brand performs across its full range	- A simple visual dashboard to filter by skin type and category - Clear price-vs-rating comparisons to judge value - Quick identification of top-performing, broadly compatible brands

Key Insight

The empathy map shows the core unmet need is not more product data — it is a way to see existing data clearly and compare it on the dimensions that matter (skin type, price, rating, brand). This directly shaped the dashboards built in the Project Development Phase (see attached Cosmetics Insights Dashboard, Section 6).
