

Project Design Phase-II

Solution Requirements (Functional & Non-functional)

Date	30 June 2026
Team ID	
Project Name	Cosmetic Insights: A Tableau-Based Analysis of Skincare Trends and Consumer Preferences
Maximum Marks	4 Marks

Functional Requirements:

Following are the functional requirements of the proposed solution.

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	Data Import & Preparation	Import cosmetics.csv (1,472 records); clean and standardize category labels and skin-type flags in Excel
FR-2	Category-wise Analysis	Category_Level Product Distribution Analysis; Category wise total revenue; category level product distribution
FR-3	Brand-wise Analysis	Brand Count; Brand with their average prices; Top 10 brands by product count; Top 10 brands and cosmetics count
FR-4	Skin-Type Suitability Analysis	Dry; oily; Sensitive; normal; Combination; Category-wise distribution of combination skin; Total skin types count; skin types count
FR-5	Price vs. Rating Analysis	price vs rank scatter plot
FR-6	All-Skin-Type Brand Recommendation	Top 10 Brands that are suitable for all skin types
FR-7	Storyboard Presentation	Story 1 — guided narrative combining the above worksheets for demo/review

Non-functional Requirements:

Following are the non-functional requirements of the proposed solution.

FR No.	Non-Functional Requirement	Description
NFR-1	Usability	Dashboards must be understandable to a non-technical user (buyer or analyst) within a few minutes, using clear labels and consistent color coding by category/brand.

FR No.	Non-Functional Requirement	Description
NFR-2	Security	Dataset and workbook contain no personally identifiable information; access is limited to the team and the published Tableau Public link.
NFR-3	Reliability	Visual aggregates must consistently match the underlying 1,472-row dataset on every refresh/reload.
NFR-4	Performance	All 18 worksheets and the storyboard must render within a few seconds on a standard machine, given the dataset size (~1,500 rows).
NFR-5	Availability	The packaged workbook (.twbx) and Tableau Public link must be accessible for review at any time without requiring the original raw files.
NFR-6	Scalability	The data source and worksheet structure should support adding new product rows or brands without redesigning the dashboards.
